JAPAN AEROSPACE CORPORATION

JAPAN AEROSPACE CORPORATION Announces Representative Agreement
With Embraer Executive Jets for Sales in Japan

JAPAN AEROSPACE CORPORATION announced today that it has entered into an agreement with Embraer Executive Jets to become an authorized sales representative for Embraer's business jets in Japan.

Embraer is presently the world's third biggest manufacturer of commercial Jets. Since its creation in 1969, the Brazil-based company has delivered more than 8,000 aircraft.

Embraer Executive Jets was launched by Embraer in 2005. Since then, it has developed a full line of business aircraft, ranging from the entry-level Phenom 100E to the ultra-large Lineage 1000E. Embraer Executive Jets' global fleet exceeds 1,000 aircraft, which are in operation in more than 60 countries.

JAPAN AEROSPACE CORPORATION, headquartered in Minato-Ku, Tokyo, has begun sales of Embraer business Jets for individuals, commercial companies and air services companies in Japan.
